

Competent Boards Advisory Services

Tailored Board Training and Assessment for Effective Governance and Leadership

| Your Trusted Advisor

Competent Boards is a front-runner in the learning industry trusted by more than 1,000 board members and business executives in over 55 countries. We focus on inspiring and building strong, competent boards through forward-looking training, education and certification, flexibly tailored to the needs of the organization.

| How Can We Support?

Future-Proof Your Boardroom

Our advisory services are designed to help boards stay ahead of regulatory changes and meet stakeholder expectations. We offer practical, actionable strategies to enhance sustainability governance, ensuring resilience, compliance, and strategic foresight.

Advisory Services Overview

Virtual / In-person Training Sessions

Explore latest trends, regulations, best practices, and critical issues tailored to your needs. The sessions can range from one to three hours.

Board-Management Gap Assessment

A confidential survey that evaluates board and management views on sustainability competencies, identifying strengths and governance improvement areas to ensure cohesive collaboration and clear communication.

Board Evaluation

Through a structured and confidential process, board members receive feedback on their involvement from their peers, aimed at improving board dynamics and effectiveness.

Board Matching

We leverage our global network of over 1,000 Competent Boards alumni to seamlessly fill board and advisory positions, including skill-matrix review and update.

Ongoing Advisory

Receive **X** hours of monthly advisory services covering strategic planning, succession, and leadership coaching, with options for board meeting attendance to ensure governance excellence.

Please send an email to Ayman Chowdhury to learn more about these services and pricing

“Competent Boards trained the board directors that sit on our portfolio company boards, delivering a bespoke workshop around the world to over 100 directors. They’re now better positioned to understand and manage climate change, human rights, and supply chain disruptions that can pose risks and opportunities for our companies.”

Katharina Neureiter

Co-Head, Global Sustainability, Carlyle
